Education

PhD **University of Ostrava**, Biology — Ostrava, Czechia, 2015 – 2019
- Thesis: *Bridging the Americas and Eurasia: Population history of American arctic peoples*

MSc **Istanbul University**, Molecular Biology and Genetics — Istanbul, Türkiye, 2012 – 2015

BSc **Istanbul University**, Molecular Biology and Genetics — Istanbul, Türkiye, 2007 – 2012

Experience

Hacettepe University, Assistant Professor, Department of Anthropology — Ankara, Türkiye, 2024 – present, 2 years

Hacettepe University, Instructor, Department of Anthropology — Ankara, Türkiye, 2019 – 2024, 5 years

Max Planck Institute for the Science of Human History, Visiting Researcher, Department of Archaeogenetics — Jena, Germany, 2018 – 2019, 1 year

University of Ostrava, Researcher, Life Science Research Center — Ostrava, Czechia, 2015 – 2019, 4 years

Mustafa Kemal University, Research Assistant, Department of Anthropology — Hatay, Türkiye, 2014 – 2015, 1 year

Awards

Science Academy Young Scientist Award (BAGEP) — Bilim Akademisi, Türkiye, Apr 2025

The Science Academy's Young Scientist Award (BAGEP) is a highly prestigious, non-governmental recognition that supports early-career researchers across disciplines. Awarded through a rigorous, merit-based process, it provides recipients with independent funding and intellectual freedom to pursue original and high-risk, high-gain research. This trust-based model makes BAGEP a cornerstone of Turkey's scientific ecosystem.

Grants and Projects

From Bones to Bonds: Building the Genomic Basis for Roman Kinship Studies — 2025 – 2027

Principal Investigator · TÜBİTAK 2247-B European Research Council (ERC) Support Program

Investigation of Bronze Age Western Anatolian Population Dynamics with Archaeogenomic Approaches 2024 – 2027
Advisor · TÜBİTAK 1001 Scientific and Technological Research Projects Funding Program

Leprosy in Anatolia: A Palaeopathological and Archaeogenomic Study 2023 – 2026
Advisor · TÜBİTAK 1001 Scientific and Technological Research Projects Funding Program

Supplementary Funding for TÜBİTAK 1001 Project 121Z485 2023 – 2025
Principal Investigator · Hacettepe University Scientific Research Projects Coordination Unit (BAP)

Nicaean People and Byzantine Warriors: A Bioarchaeological Study (İBİS) 2022 – 2025
Researcher · TÜBİTAK 1001 Scientific and Technological Research Projects Funding Program

Anatolian–Caucasian Relations from the Neolithic to the Middle Ages: An Archaeogenomic Study on Human Remains from Anatolia and Azerbaijan 2022 – 2025
Advisor · TÜBİTAK 1001 Scientific and Technological Research Projects Funding Program

Investigation of the Population History of Roman Era Coastal and Inland Societies in Anatolia from an Archaeogenomic Perspective 2021 – 2024
Principal Investigator · TÜBİTAK 1001 Scientific and Technological Research Projects Funding Program (Project No. 121Z485)

Mapping the Neolithic Expansion in the Mediterranean: A Scientific Collective to Promote Archaeogenomics and Evolutionary Biology Research in Turkey (NEOMATRIX) 2021 – 2024
Researcher · European Union Horizon 2020 Twinning

Archaeogenomic Analysis of Genetic and Cultural Interactions in Neolithic Anatolian Societies (NEOGENE) 2018 – 2024
Researcher · European Research Council (ERC) Consolidator Grant, Horizon 2020

Archaeogenetic Study of Human Populations in Mainland Southeast Asia 2019 – 2021
Research Fellow · University of Ostrava, Czechia

New Research Directions at the Life Science Research Centre 2015 – 2017
Research Fellow · University of Ostrava, Czechia

(Philosophy and History of Race Workshop (online))

First Genomic Insights into the Pre-Pottery Neolithic of Upper Mesopotamia June 2021
N. E. Altınışık, A. Aydoğan, D. D. Kazancı, K. B. Vural, D. Koptekin, M. Özkan, …
(9th International Symposium on Biomolecular Archaeology (ISBA9), Toulouse, France)

Benchmarking Kinship Estimation Tools for Ancient Genomes Using Pedigree Simulations Oct 2020
M. Çetin, Ş. Aktürk, I. Mapelli, R. Yaka, S. Çokoğlu, D. Zakaria, …, **N. E. Altınışık**, …
(13th International Symposium on Health Informatics and Bioinformatics (HIBIT 2020), Istanbul, Türkiye)

Traces of Human Adaptive Evolution in the Mediterranean Region Oct 2020
F. R. Fidan, E. Fer, **N. E. Altınışık**, Ö. Gökçümen, M. Somel
(International Symposium on Health Informatics and Bioinformatics (HIBIT 2020), Istanbul, Türkiye)

Kuzey Amerika ve Kuzeydoğu Asya Halklarının İlişkisinin Genomik Açıdan İncelenmesi [A Genomic Investigation of the Relationship between the Peoples of North America and Northeast Asia] Oct 2019
N. E. Altınışık, P. Flegontov, P. Changmai, S. Schiffels
(7th Biological Anthropology Symposium, Ankara, Türkiye)

Tracing the Origin and Expansion of the Turkic and Hunnic Confederations Sept 2018
P. Flegontov, **N. E. Altınışık**, C. Jeong, S. Schiffels, …
(8th International Symposium on Biomolecular Archaeology (ISBA8), Jena, Germany)

Indian Genetic Heritage in Southeast Asian Populations Sept 2018
P. Changmai, **N. E. Altınışık**, E. Yüncü, O. Flegontova, J. Kampuansai, W. Kutanan, …
(8th International Symposium on Biomolecular Archaeology (ISBA8), Jena, Germany)

Comparing Alternative Hypotheses on the Peopling of the American Arctic Aug 2018
N. E. Altınışık, P. Changmai, D. Reich, S. Schiffels, P. Flegontov
(2nd Joint Congress on Evolutionary Biology, Montpellier, France)

Modelling the Origin and Expansion of Turkic Speakers July 2018
N. E. Altınışık, P. Flegontov
(Ecology and Evolutionary Biology Symposium Turkey, İzmir, Türkiye)

A New Model for the Peopling of the American Arctic July 2017
N. E. Altınışık, P. Flegontov
(Ecology and Evolutionary Biology Symposium Turkey, Istanbul, Türkiye)

Rare Variants and Autosomal Haplotypes Reveal the Siberian Roots of North American Na-Dene Populations Dec 2016
P. Flegontov, **N. E. Altınışık**, P. Changmai, E. J. Vajda, J. Krause, S. Schiffels
(DNA Polymorphisms in Human Populations, Paris, France)

Publications

Zur Elektrodynamik bewegter Körper
It concerned an interpretation of the Michelson–Morley experiment and the properties of light and time. Special relativity incorporates the principle that the speed of light is the same for all inertial observers regardless of the state of motion of the source.
Albert Einstein
en.wikisource.org/wiki/Translation:On_the_Electrodynamics_of_Moving_Bodies

Über einen die Erzeugung und Verwandlung des Lichtes betreffenden heuristischen Gesichtspunkt
In the second paper, he applied the quantum theory to light to explain the photoelectric effect. In particular, he used the idea of light quanta (photons) to explain experimental results, but stressed the importance of the experimental results. The importance of his work on the photoelectric effect earned him the Nobel Prize in Physics in 1921.
Albert Einstein
de.wikisource.org/wiki/%C3%9Cber_einen_die_Erzeugung_und_Verwandlung_des_Lichtes_betreffenden_heuristischen_Gesichtspur

Die Grundlage der allgemeinen Relativitätstheorie
The publication of the theory of general relativity made him internationally famous. He was professor of physics at the universities of Zurich (1909–1911) and Prague (1911–1912), before he returned to ETH Zurich (1912–1914).
